ReFirme™
Skin Contouring

Tighten & Firm Skin Without Downtime
ReFirme™ is a Health Canada cleared non-invasive skin tightening procedure featuring the revolutionary elõs™ technology that enables you to comfortably achieve a more youthful, toned and lifted appearance without enduring downtime.

ReFirme™ is a complete anti-aging solution for targeting those telltale signs of aging, including neck laxity, sagginess under the eyes, and nasolabial folds.

Unlike conventional laser skin tightening treatments that are time and treatment intensive, and often too painful for many patients, ReFirme™ offers virtually painless and fast treatment for sagging and wrinkled skin.

Look as young as you feel!

We provide treatments that are simple, safe and effective.

There is no surgery, no sedation and no downtime.

Leg & Facial Vein Treatment

Diminish Problem Veins

We are proud to offer elõs™, the first and only technology that uses combined energies to effectively and gently reduce the appearance of problem veins on the legs and face. Elõs™ is truly the next generation of safe and effective vein treatment technology.

Skin Renewal

Look And Feel Young Again

Over time, skin begins to display the effects of aging. Factors such as chronic sun exposure, lifestyle choices and environmental factors can speed up the aging process significantly.

Now you can safely and quickly fade age spots, spider veins, rosacea and uneven skin tone due to sun damage.

Only elõs™ combines radio frequency and light energies to gently and precisely target problem areas. The end result is clear, youthful looking skin. Restore your skin to a healthy state with elõs™ skin renewal treatments.

Elõs™ Hair Removal

Treat unwanted hair growth on all body areas including upper lip, cheeks, chin, neck, breasts, stomach, arms, shoulders, bikini area, legs, and back. Combined energies effectively and gently remove hairs of many colours, from many skin tones. The hair follicles are precisely targeted and destroyed using the revolutionary elõs™ combination of bipolar radio frequency, laser and light energies. Hair growth will be reduced after each treatment until you have no hair growth left. How many treatments required will be based on hair colour, hair type, body area and skin tone. Cooling of the skin surface, as well as constant measurement of the skin's resistance, ensure safety and comfort during treatment. This is a no-downtime treatment. Achieving beautiful, silky smooth skin is now easier than ever.
